Eurythmy: AUM = A – I stand for myself, U- I stand for humanity, M – I stand for Life

Social Sculpture: Steiner's 'Blue Dot Exercise' - Through Art, the bridge between science & spirit, we warm the 'I', to open the heart, in support of healthy community.

What are my gifts-What are my tools? How can I place them in right relationship within the social realm? How can I hone them to strengthen and enhance the world?

Enter the Labyrinth of Vitae Sophia - Human hearts, once warmed, can rise up to meet the source of wisdom, like flowers turning toward the sun.

Living into the Foundation Stone of Love - How can we take our individual Inner Whitsun & expand it, into what Steiner calls the "World Festival of Knowledge" a path leading from 'Sprit Recollection', to 'Sprit Sensing', to 'Sprit Beholding'?
